Course Title: Foundation in Maternal and Child Health
Course Number: UGPH 0560
Course Pre- and Co-requisite(s): None
Course Location: Online asynchronous
Course Date & Time: Online asynchronous
Course Instructor: Ashley Grosso, PhD, Assistant Professor, Urban-Global Public Health, Institute for Health, Health Care Policy and Aging Research, agrosso@ifh.rutgers.edu, 848-932-5837
Office Hours: By appointment only
Course Assistant: Ashley Chin, MPH candidate, ajc377@sph.rutgers.edu
Course Website: Canvas

Additional/Supplemental Readings/Resources: Required reading materials will include a combination of chapter texts, articles, websites and other sources. All posted on Canvas.

Course Description: In this course, students will gain an understanding of the determinants of the health of mothers and children, from a macro perspective including public policy, neighborhoods, schools, and health facilities, and from an individual perspective, including health beliefs and behaviors.

Selected Concentration Competencies Addressed: Each Concentration identifies competencies for each degree offered. The competencies addressed in this course for the MPH in Urban Public Health include:

1. Analyze the role of individual, biological, social, economic, political, and environmental factors that influence the health status of urban populations
2. Use relevant sources (including public health literature and qualitative and quantitative data) to identify the health status and disparities in urban populations and communities
3. Examine the characteristics, unique health challenges, and opportunities of urban populations and communities

Please visit the Concentration webpages on the School of Public Health’s website at sph.rutgers.edu for additional competencies addressed by this course for other degrees and concentrations.

Course Objectives: By the completion of this course, students will be able to:

a. Understand the social determinants of health outcomes during pregnancy, infancy, childhood, and adolescence
b. Utilize a life course perspective to analyze inequalities in MCH health outcomes
c. Analyze historical and current mechanisms shaping MCH programs and policy in the US
d. Compare and contrast MCH policies and health outcomes in the US and other low-, middle-, and high-income countries
e. Understand the strengths and weaknesses of MCH data sources
f. Communicate MCH information effectively in written and oral formats
g. Utilize a community-based, multicultural approach for MCH programs in vulnerable populations

Special Circumstances During COVID-19 (For Fall 2021)
The School of Public Health recognizes that students may experience challenges or be negatively impacted due to the COVID-19 pandemic, mental and emotional health toll from systemic racism, altered personal and professional obligations, and other crises existing at the moment in our local, national, and global communities. Students are encouraged to discuss these challenges and circumstances with their instructor, if they feel they may need additional support or temporary accommodations at the beginning or during this course. The course instructor may consider making reasonable temporary adjustments depending on the student’s situation. If additional support is needed, students may reach out to the Office of Student Affairs (studentaffairs@sph.rutgers.edu) or any of the appropriate referral resources listed on the Student Connect Canvas page.

Course Requirements and Grading:

Assignment Standards-

**Lateness.** There will be no penalties for late work. If you know you will need to turn in an assignment late, please notify the instructor by email if possible. This policy may change later in the semester if the number of assignments turned in after the due date is excessive enough to interfere with grading in a timely manner. If it is necessary to change the policy, an announcement will be posted in Canvas, and an email will be sent to students. Note that the instructor must submit final grades to the registrar by January 3, 2022.

**Citations.** Please use a standard citation style for references in written assignments (e.g., APA, MLA, Vancouver) consistently.

**Margins and Page Limits Requirements.** Refer to each assignment instructions for margins and page limit requirements. Instructions will be available on Canvas

- Additional details about the course’s assignments will be provided during the semester.

**Grading Policy:**

- 94 – 100  A
- 90 – <94  A-
- 87 – <90  B+
- 84 – <87  B
- 80 – <84  B-
- 77 – <80  C+
- 70 – <77  C
- <70  F

**Course Schedule:**

**Module 1: September 1-5**

**Overview of the class and brief history of the maternal and child health field and Title V**

- **Assigned Readings**
  - Textbook Chapter 2 "Tracing the Historical Foundations of Maternal and Child Health to Contemporary Times".

- **Assignments**
  - Discussion
  - Quiz
  - Activity: Maternal and child health jobs

**Module 2: September 6-12**

**Women, infants and addiction**

- **Assigned Readings**

- **Video Lectures**
Rutgers School of Public Health

- "Women in Addiction: A systems perspective to prevention and treatment" by Dr. Qiana Brown, Assistant Professor of Social Work and Urban-Global Public Health, Rutgers University
- "Scope of substance use disorders in pregnancy in New Jersey" by Deena Cohen, Central Jersey Family Health Consortium
- "Perinatal barriers to care" by Dr. Natalie Roche, Department of Obstetrics, Gynecology and Women's Health, Rutgers New Jersey Medical School

- **Assignments**
  - Discussion
  - Quiz
  - Activity: Maternal and child health conferences

**Module 3: September 13-19**

**Maternal mortality**

- **Assigned Readings**
  - Textbook Chapter 6 "Mothers and Infants".
  - Martin N, Montagne R. The last person you’d expect to die in childbirth. Propublica, NPR, May. 2017 May 12.

- **Video Lectures**
  - "Disparities and determinants of maternal mortality in the United States" by Dr. Slawa Rokicki, Instructor, Department of Health, Behavior, Society, and Policy, Rutgers School of Public Health

- **Assignments**
  - Discussion
  - Quiz
  - Activity: Maternal and child health podcast

**Module 4: September 20-26**

**Infant mortality**

- **Assigned Readings**
  - Textbook Chapter 10 "Disparities in Maternal and Child Health in the United States".

**Video Lectures**
- "Reducing the risk of Sudden Unexpected Infant Death" by Dr. Barbara Ostfeld, Professor, Department of Pediatrics; Program Director, SIDS Center of New Jersey; Rutgers Robert Wood Johnson Medical School
- "Infant Mortality: Data, causes and what one state is doing to give at-risk mothers and babies a better chance" by Robyn D'Oria, Chief Executive Officer, Central Jersey Family Health Consortium

**Assignments**
- Discussion
- Quiz
- Activity: Maternal and child health social media

**Module 5: September 27-October 3**

**Environment and maternal and child health**

**Assigned Readings**
- Textbook Chapter 13 "Women, Children, and Environmental Health".

**Video Lectures**
- "Maternal and Child Health: Environmental Factors" by Dr. Elizabeth Marshall, Associate Professor of Biostatistics and Epidemiology, Rutgers School of Public Health
- "Lead levels and lead prevention for pregnant people and new parents" by Abigail Daniel, MPH candidate, Social and Behavioral Health Sciences, Rutgers School of Public Health

**Assignments**
- Discussion
- Quiz
- Activity: Data exploration

**Module 6: October 4-10**

**Life course approach**

**Assigned Readings**
Textbook Chapter 4 "A Life Course Perspective on Maternal and Child Health".

Video Lectures

"Younger Initiation of Selling Sex and Depressive Symptoms among Female Sex Workers in eSwatini" by Ashley Grosso

Assignments

Discussion
Quiz
Activity: Maternal and child health grants

Module 7: October 11-17

Child health

Assignments Readings

Textbook Chapter 7: “The Child from One to Four: The Toddler and Preschool Years”.

Textbook Chapter 8: “The School-Age Child”.

Video Lectures

"Child food access and nutrition" by Abigail Daniel, MPH candidate, Social and Behavioral Health Sciences, Rutgers School of Public Health

Assignments

Discussion
Quiz
Activity: Maternal and child health blog post

Module 8: October 18-24

Adolescent health
Module 9: October 25- October 31
Fatherhood

- **Assigned Readings**
  - Caspar E. Paid parental leave in the United States. The Institute for Research on Poverty (IRP) is a nonprofit. 2018;608:262-6358.

- **Assignments**
  - Discussion
  - Fatherhood interview assignment

Module 10: November 1-7
Contraception and maternal and child health

- **Assigned Readings**
  - Textbook Chapter 5 "Family Planning".
Assignments
- Discussion
- Quiz
- Health profile outline
  - Please submit an outline of your health profile. The purpose of this outline is to verify that you have reviewed the health profile instructions in detail, understand the components and breadth of the assignment, and have a plan for completing all the components in a timely manner. The outline can be very simple. You should choose the geographic area you would like to study, start thinking about data sources, and ask any questions you have at this point. The outline should include:
    1. A list of the components of the health profile (see the assignment information).
    2. A plan for completion of those components—what are some of the possible data sources? (does not have to be complete at this point)
    3. A draft schedule to complete the health profile on time.

Module 11: November 8-14
Global maternal and child health
- Assigned Readings
  - Textbook Chapter 16 "Global Maternal and Child Health".
- Assignments
  - Discussion
  - Midterm exam
    - The midterm exam questions will not be specific to a particular reading or lecture in the way that some of the quiz questions are. For example, there will not be questions about what the results of a particular study were, which states have particular policies or outcomes, or the specific years particular policies were enacted. Instead, the exam questions will focus on your understanding of and ability to apply key concepts, theories, and
terms. Some of these will have been referenced in a particular reading or lecture (for example but not limited to: life course theory, buffers, health equity, pregnancy-related death, sudden unexpected infant death); many of them may have been mentioned in multiple readings or lectures. Unlike most of the quiz questions, some of the exam questions will be open-ended questions for which you have to write an example or response. The format will be open-book open-notes and untimed. The exam will be published at 9:00 am on Monday, November 8, and it is due by the following Monday, November 15 at 9:00 am.

Module 12: November 15-21
Children with special health care needs

- **Assigned Readings**
  - Textbook Chapter 12 "Children with Special Health Care Needs".
  - History of Anti-vaccination movements
    https://www.historyofvaccines.org/content/articles/history-anti-vaccination-movements

- **Video Lectures**
  - “Vaccinations” by Ashley Chin

- **Assignments**
  - Discussion
  - Quiz

Module 13: November 22-28
Cultural competence and addressing disparities in maternal and child health

- **Assigned Readings**
Module 14: November 29-December 5

Multilevel determinants of reproductive and perinatal health

- **Assigned Readings**

- **Video Lectures**
  - “Multilevel determinants of reproductive and perinatal health” by Dr. Teresa Janevic, Blavatnik Family Women’s Health Research Institute, Assistant Professor of Obstetrics, Gynecology, and Reproductive Science, Assistant Professor of Population Health Science & Policy, Icahn School of Medicine at Mount Sinai

Module 15: December 6-12

Health profile presentations

- **Assignments**
  - Health profile presentation

Module 16: December 13-20

Course wrap-up

- **Assignments**
  - Discussion
  - Final health profile

Learning Management System: Canvas will be used extensively throughout the semester for course syllabus, assignments, announcements, communication and/or other course-related activities. It is the student’s responsibility to familiarize themselves with Canvas and check it regularly. If you have difficulties accessing Canvas, please inform the instructor and Canvas Support (help@canvas.rutgers.edu). Canvas is accessible at canvas.rutgers.edu.

School of Public Health Honor Code: The School of Public Health Honor Code is found in the School Catalog (sph.rutgers.edu/academics/catalog.html). Each student bears a fundamental responsibility for maintaining academic integrity and intellectual honesty in his or her graduate work. For example, all students are expected to observe the generally accepted principles of scholarly work, to submit their own rather than another’s work, to refrain from falsifying data, and to refrain from receiving and/or giving aid on examinations or other assigned work requiring independent effort. In submitting written material, the writer takes full responsibility for the work as a whole and implies that, except as properly noted by use of quotation marks, footnotes, etc., both the ideas and the works used are his or her own. In addition to maintaining personal academic integrity, each student is expected to contribute to the academic integrity of the School community by not facilitating inappropriate use of her/his own work by others and by reporting acts of academic dishonesty by others to an appropriate school authority. It should be clearly understood that plagiarism, cheating, or other forms of academic dishonesty will not be tolerated and can lead to sanctions up to and including separation from the Rutgers School of Public Health.

Students with Disabilities: Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student must apply for Services by first completing a Registration Form with the Rutgers Office of
Disability Services (ODS) at ods.rutgers.edu. The student will also be required to participate in an ODS intake interview and provide documentation. If reasonable accommodations are granted, ODS will provide you with a Letter of Accommodations which should be shared with your instructors as early in your courses as possible.

**Commitment to Safe Learning Environment:** The Rutgers School of Public Health is committed to helping create a safe learning environment for all students and for the School as a whole. Free expression in an academic community is essential to the mission of providing the highest caliber of education possible. The School encourages civil discourse, reasoned thought, sustained discussion, and constructive engagement. Provocative ideas respectfully presented are an expected result. An enlightened academic community, however, connects freedom with responsibility. The School encourages all students to disclose any situations where you may feel unsafe, discriminated against, or harassed. Harassment or discrimination of any kind will be not tolerated and violations may lead to disciplinary actions.

**Reporting Discrimination or Harassment:** If you experience any form of gender or sex-based discrimination or harassment, including sexual assault, sexual harassment, relationship violence, or stalking, know that help and support are available. You may report such incidents to the RBHS Title IX Office or to the School of Public Health's Office of Student Affairs. Rutgers University has staff members trained to support survivors in navigating campus life, accessing health and counseling services, providing academic and housing accommodations, and more. If you experience any other form of discrimination or harassment, including racial, ethnic, religious, political, or academic, please report any such incidents to the School’s Office of Student Affairs. The School strongly encourages all students to report any incidents of discrimination or harassment to the School. Please be aware that all Rutgers employees (other than those designated as confidential resources such as advocates, counselors, clergy and healthcare providers as listed in Appendix A to Policy 10.3.12) are required to report information about such discrimination and harassment to the School and potentially the University. For example, if you tell a faculty or staff member about a situation of sexual harassment or sexual violence, or other related misconduct, the faculty or staff member must share that information with the RBHS Title IX Coordinator. If you wish to speak to a confidential employee who does not have this reporting responsibility, you can find a list of resources in Appendix A to University Policy 10.3.12. For more information about your options at Rutgers, please visit Rutgers Violence Prevention and Victim Assistance.

**Graduate Student Computer Policy:** Students are required to possess a personal laptop, no older than approximately two years, that must meet minimum requirements which may be found online at: sph.rutgers.edu/student-life/computer-support.html

**Policy Concerning Use of Recording Devices and Other Electronic Communications Systems:** When personally owned communication/recording devices are used by students to record lectures and/or classroom lessons, such use must be authorized by the faculty member or instructor who must give either oral or written permission prior to the start of the semester and identify restrictions, if any, on the use of mobile communications or recording devices.

**Policy Concerning Use of Turnitin:** Students agree that by taking this course all required papers may be subject to submission for textual similarity review to Turnitin.com (directly or via learning management system, i.e. Canvas) for the detection of plagiarism. All submitted papers will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin.com service is subject to the Usage Policy posted on the Turnitin.com site. Students who do not agree should contact the course instructor immediately.

**Withdrawal/Refund Schedule:** Students who stop attending their course(s) without submitting a completed Add/Drop Course form will receive a failing grade. Furthermore, students dropping to zero credits for the semester are considered withdrawn and must submit a completed Leave of Absence form.
from the School of Public Health's Office of Student Affairs. The School of Public Health refunds tuition only. Administrative and technology fees are non-refundable. You may find the Withdrawal/Refund Schedule on the School of Public Health website at:
sph.rutgers.edu/academics/academic-calendar.html
