Course Title: Global Food and Culture
Course Number: UGPH 0670
Course Pre- and Co-requisite(s): None
Course Location: One Riverfront Plaza, Suite 1020 Room 1023
Newark NJ, 07102
Course Date & Time: Wednesdays, 6-8pm
Course Instructor: Shauna Downs, PhD, MS
Assistant Professor, Department of Urban-Global Public Health
One Riverfront Plaza, Newark NJ 07102
Email: sd1081@sph.rutgers.edu
Office Hours: Tuesdays 5-6pm or by appointment (online via zoom)
Course Website: canvas.rutgers.edu
Required Course Text: None

Additional/Supplemental Readings/Resources: The class readings consist of articles and book chapters. Readings will be posted on the Canvas system for the course. If this is not possible, some readings will be distributed in class, via e-mail, or through links to electronic journals or other web sites.

Course Description: Food tells a unique story about people, places and perspectives. By understanding what drives people to eat the foods they do, we can gain insight into the broader factors that influence nutrition and health outcomes of populations around the world. The overarching aim of this course is to provide students with a deeper understanding of the cultural, social, environmental, political and economic determinants that affect the food choices, nutrition and health of populations globally. Students will learn cultural concepts that relate to food and body shape preferences, they will examine how different farming and food systems influence the foods that populations have access to, and they will learn about the diverse dietary patterns from around the globe, and how they might influence health outcomes. The course will be divided into three modules: 1) cultural aspects of food choice; 2) food system typologies; and 3) global dietary patterns. A combination of lectures (in-class and online), discussions, online quizzes, homework, in-class group work, assignments and in-class presentations will be used to meet the course objectives.

Selected Concentration Competencies Addressed: Each concentration identifies competencies for each degree offered. The competencies addressed in this course for the MPH in Public Health Nutrition include:

- Analyze local and global food systems.
- Demonstrate the use of evidence-based research in practice to study the relationships between diet, nutrition, and health outcomes across the life span.
- Utilize culturally appropriate assessment methodologies to identify and prioritize diet and nutritional problems for diverse population groups.
Course Objectives: By the completion of this course, students will be able to:

- Identify cultural, social, environmental, political and economic determinants that affect the food choices, nutrition and health of populations globally
- Apply qualitative research methods to understand the drivers of food choice
- Demonstrate appreciation for personal, social, cultural, economic, and historical variations and diversity in food, eating, and nutrition
- Understand the different food system typologies globally and how these influence dietary patterns
- Demonstrate the ability for systems thinking to analyze food systems globally from multiple perspectives

Course Requirements and Grading: Over the course of the semester, students will have the opportunity to earn 100 points. The course grades will be based on reflections, assignments and class participation. A detailed description of the assignments and their grading criteria will be posted on Canvas.

1. Reflections [3 x 5 pts.]: Each student will be responsible for writing four brief reflections- (500-750 words) based on specific topics related to food and culture from readings, videos, lectures, etc. Each reflection topic will be provided to students along with a question to consider in their reflection. Appropriate citations and APA or AMA formatted references are required for all reflections. [Due: September 15th, October 27th, November 10th]

2. Qualitative Interview Assignment [25 pts.]: Students will develop a semi-structured interview guide on the topic of the determinants of food choice. Interview guides should be based on concepts discussed in class as well as the academic literature related to food choices. It should also be tailored to a specific population. Students will submit their interview guides to the instructor for feedback, incorporate the suggested changes, and then subsequently conduct an interview with a volunteer who consents to participating and being audio-recorded. Students should record the interview and take detailed field notes. Students will write a reflection (~1000 words) related to conducting the interview, their key takeaways from the interviews and how the findings relate to the existing literature. Appropriate citations and APA or AMA formatted references are required for all reflections. [First draft due September 29th; Final interview guide + reflection due October 13th]

3. Nutrition and food system analysis [30 pts.]: Students will conduct an analysis of the food system in a specific country in the world. Each student will be asked to select a country from a specific region of the world to ensure that different regions and countries are covered by the class. The analysis will contain: 1) an overview of the food system (including political, economic, social, environmental and cultural drivers); 2) a description of dietary patterns, and how the food system may influence those patterns; and 3) the main diet-related health problems (e.g., obesity, anemia, etc.) and priorities in the country. Students will be asked to use existing data sources (e.g., Global Dietary Database, Demographic Health Surveys, etc.) to describe current dietary patterns in the
country. The paper should not exceed 2,500 words and should contain 3-5 tables/graphs to depict the nutrition and food situation in the country. Appropriate citations and APA or AMA formatted references are required. [Due December 15th]

4. In-class presentations [20 pts.]: Building on their nutrition and food system analysis, each student will present an overview of the food and culture of their selected country to the class using powerpoint or an equivalent presentation software. The presentations will be approximately 10 minutes in length, with additional time for questions from the class. The presentations should cover the following topics for their selected country: what people typically eat, why they eat it (e.g., determinants of food choice (with a particular reference to culture)) and how dietary patterns influence the health of the population. Students should also have one slide that describes the country’s national dish, including its cultural significance. Students will be assessed by both the instructor and their peers. [Due December 8th]

5. Class participation [10 pts.]: This course is designed to be highly interactive. Class participation is expected from everyone during in-class group work, activities and discussions. Regular class participation and attendance are required and will be assessed throughout the semester. Please notify the instructor if you expect to be absent.

Summary of Grading:
1. Reflections 15 pts.
2. Qualitative interview assignment 25 pts.
3. Nutrition and food system analysis assignment 30 pts.
4. In-class presentations 20 pts.
5. Class participation 10 pts.
Total: 100 pts.

Grading Scale: 94 – 100 A
90 – <94 A-
87 – <90 B+
84 – <87 B
80 – <84 B-
77 – <80 C+
70 – <77 C
<70 F *Grades will NOT be rounded.

Late Assignments: Students will lose a full letter grade for each 24 hours after the due date for the assignment has passed. All homework assignments need to be either emailed to the instructor prior to class or handed in during class. Homework received after class will lose 0.5 points per day. All written work must be completed to receive a passing grade in this class. Please let the instructor know as early as possible if you have any concerns about meeting assignment deadlines.

Course Schedule:
MODULE 1. CULTURAL ASPECTS OF FOOD CHOICES

Date: Week 1
Introduction to food and culture
- **Class Overview:**
  - Describe what is meant by food and culture
  - Define the material and ideational (cognitive) sociocultural elements of food
- **Assigned Readings Due:**

Date: Week 2
Sociocultural aspects of food
- **Class Overview:**
  - Discuss the role of using food as a lens to examine politics, equity and sociocultural dynamics of populations
  - Examine food meanings and symbols
  - Examine the structure of meals
- **Assigned Readings Due:**
  - Barilla Foundation. The cultural dimension of food.
- **Online 30:**
  - In *Parts Unknown*, Anthony Bourdain uses food to explore different social, economic, political and religious contexts.
  - Students are asked to watch one episode of parts unknown and answer the following questions
    - How does Anthony Bourdain use food to better understand the historical, political, economic, social, culture, equity, religious, etc. aspects of the city/country?
    - What did you learn about the food culture in your selected city/country that you didn't previously know?

Date: Week 3
Determinants of food choice
- **Class Overview:**
  - Examine the links between religion and food choice.
  - Conceptualize food choice.
  - Review the food choice process model.
  - Discuss the drivers of our food choices.
- **Assigned Readings Due:**
Methodological approaches to understanding food choice

Class Overview:
- Describe different qualitative approaches to examining food choices.
- Discuss research questions that are conducive to using qualitative methods.
- Describe how to develop semi-structured interview guides and how to analyze qualitative interview data.
- Conduct a pile sorting in-class exercise.

Assigned Readings Due:

Online 30:
- Students can access the website to conduct pile sorts here:
  - https://5pyifwn0.optimalworkshop.com/optimalsort/class/sort
  - Instructions are provided for the different pile sorts
  - Note the labels that you used to name the different piles in the first sorting exercise and be ready to explain why you sorted them that way in class

MODULE 2. FOOD PRODUCTION SYSTEMS

Date: Week 5

Gender, race, ethnicity and food production

Class Overview:
- Discuss gender and race dynamics in food production and processing.
- Discuss the historical context of farming in the US.

Assigned Readings Due:
- Cultivating Justice: The Farm Historical
  - https://www.arcgis.com/apps/MapSeries/index.html?appid=2412db41dacc41f6bd198d0ee3afa8c

Online 30:
- Watch the video below: “Farming while Black”
  - https://www.youtube.com/watch?v=cHiDSMKpkRg
- Be prepared to discuss in class.

Assignment Due:
- Draft of interview guide is due.
Date: Week 6

**Industrial, subsistence and organic farming systems**

- **Class Overview:**
  - Describe different farming systems around the world.
  - Discuss the role of these different farming systems to meet global food demand.
  - Discuss the role of technology in agriculture production systems.

- **Assigned Readings Due:**
  - Disrupting Big Ag: https://www.ft.com/content/d16b04b8-ea4b-4bc0-bdad-451605b3eb37

- **Online 30:**
  - Students will be asked to watch the documentary "The biggest little farm"
    - [https://www.uphe.com/movies/the-biggest-little-farm](https://www.uphe.com/movies/the-biggest-little-farm)
  - Be prepared to discuss in class

Date: Week 7

**Indigenous and pastoralist food systems**

- **Class Overview:**
  - Describe indigenous food systems from around the world.
  - Describe pastoralist food systems from around the world.
  - Discuss how environmental (i.e., climate change) drivers are affecting these systems.
  - Discuss sedentism of indigenous and pastoralist populations.

- **Assigned Readings Due:**

- **Online 30:**
  - Students should read/watch the following articles and videos
    - Nigeria’s Farmers and Herders Fight a Deadly Battle for Scarce Resources
      - Instructions: Students should read the NYTimes article and be ready to discuss future of pastoralism
    - How this Sioux Chef is bringing back Indigenous Food
      - [https://www.youtube.com/watch?v=NzfG_25NP08](https://www.youtube.com/watch?v=NzfG_25NP08)
    - Indigenous foods in Jharkhand State, India
      - [https://www.youtube.com/watch?v=ASJ2H-NV7hw](https://www.youtube.com/watch?v=ASJ2H-NV7hw)

- **Assignment Due:**
  - Final qualitative assignment due.

Date: Week 8

**Urban agriculture**

- **Class Overview:**
  - Describe the role of urban agriculture in food systems globally.
  - Discuss the opportunities and challenges for urban agriculture to address nutrition problems locally and globally.
Discuss the broader socio-ecological implications of urban farming (e.g., increased social cohesion, etc.).

**Assigned Readings Due:**

**Online 30:**
- AeroFarms Newark
  - [How AeroFarms&#39; vertical farms grow produce](https://nyti.ms/2FVwLrj)
- NYTimes. A vertical farm in Newark.
  - [https://nyti.ms/2FVwLrj](https://nyti.ms/2FVwLrj)
- Student should watch the video and formulate their opinion on the merits of vertical farming (do the pros outweigh the cons?)

**MODULE 3. GLOBAL DIETARY PATTERNS**

**Date: Week 9**

**The role of history in shaping food and culture: where does our food come from?**

**Class Overview:**
- Provide an overview of dietary patterns around the world and how they are changing.
- Examine the origins of foods around the world and how they have entered different cuisines.
- Discuss how history has influenced food and culture.

**Assigned Readings Due:**
- Where are food comes from. [http://blog.cgiar.org/origin-of-crops/](http://blog.cgiar.org/origin-of-crops/)
- The Economist. A taste of adventure: The history of spices is the history of trade. [https://www.economist.com/node/179810](https://www.economist.com/node/179810)

**Online 30:**
- The Colonial Roots of Pimiento Cheese
  - [https://www.npr.org/sections/thesalt/2019/05/19/724322542/the-colonial-roots-of-pimiento-cheese](https://www.npr.org/sections/thesalt/2019/05/19/724322542/the-colonial-roots-of-pimiento-cheese)
- The hunt for General Tso Jennifer Lee
- Instructions:
  - Read the comic strip and watch the ted talk
  - Select a food/dish that is part of your culture or a cuisine that you consume frequently
    - Does the food/dish originate elsewhere? If yes, where?

**Assignments due:**
- Reflection #2 due.
Date: Week 10

Gender, race, ethnicity and food security, diets and nutrition

- **Class Overview:**
  - Examine disparities in terms of food security in the US based on gender and race.
  - Examine differences in food preparation and consumption across different genders, races and ethnicities.
  - Examine differences cultural differences in body shape preferences globally.

- **Assigned Readings Due:**
  - New York Times. The sugar that saturated the American diet has a barbaric history as the "white gold" that fueled slavery. [https://www.nytimes.com/interactive/2019/08/14/magazine/sugar-slave-trade-slavery.html](https://www.nytimes.com/interactive/2019/08/14/magazine/sugar-slave-trade-slavery.html)
  - Wilson, B.D., Badgett, M.V. and Grissell Gomez, A., 2020. "We’re Still Hungry” Lived experiences with food insecurity and food programs among LGBTQ people.

- **Online 30:**
  - Watch at least one episode of High on the Hog on Netflix [https://www.netflix.com/title/81034518](https://www.netflix.com/title/81034518)

Date: Week 11

Healthiest diets from around the world: Mediterranean, Okinawan, etc.

- **Class Overview:**
  - Describe the different dietary patterns globally that are health promoting.
  - Break down key components of those diets.
  - Discuss how these diets can be adapted to the US or other countries globally.
  - In-class activity to examine adherence to a Mediterranean Diet.

- **Assigned Readings Due:**
  - Blue Zone videos: How to live to 100+; Okinawa, Japan; Ikaria, Greece.

- **Assignment Due:**
  - Reflection #3 due.

Date: Week 12

Migration, acculturation and diets

- **Class Overview:**
  - Describe how diets, nutritional status and health outcomes change when populations migrate.
  - Describe the acculturation process and its impact on health outcomes.
  - Discuss the healthy immigrant effect.
  - Discuss cultural aspects of food and the refugee crisis.

- **Assigned Readings Due:**

**Online 30:**
- Watch the documentary: “Salud! Myths and Realities of Mexican Immigrant Health”

Date: Week 13

**Food movements: the role of food stylists and chefs**

- **Class Overview:**
  - Describe the role of chefs as key players in the food system (from farm-to-fork).
  - Discuss how food movements influence our modern-day food and culture.
  - Discuss the role of food stylists in modern-day food movements.

- **Assigned Readings Due:**
  - NYTimes. These are the seeds of a revolution. Dan Barber.

- **Online 30:**
  - Listen to the podcast Daniel Humm: How The World's Greatest Chef Found Purpose (In Plants)
  - Note: you only need to listen to first hour

Date: Week 14

**Student presentations**

- **Class Overview:**
  - Students will conduct presentations on the food and culture of different regions around the world

- **Assignment Due:**
  - In-class presentations.

**Learning Management System:** Canvas will be used extensively throughout the semester for course syllabus, assignments, announcements, communication and/or other course-related activities. It is the student's responsibility to familiarize themselves with Canvas and check it regularly. If you have difficulties accessing Canvas, please inform the instructor and Canvas Support (help@canvas.rutgers.edu). Canvas is accessible at [canvas.rutgers.edu](canvas.rutgers.edu).

**School of Public Health Honor Code:** The School of Public Health Honor Code is found in the School Catalog ([sph.rutgers.edu/academics/catalog.html](sph.rutgers.edu/academics/catalog.html)). Each student bears a fundamental responsibility for maintaining academic integrity and intellectual honesty in his or her graduate work. For example, all students are expected to observe the generally accepted principles of scholarly work, to submit their own work, and to refrain from falsifying data, and to refrain from receiving and/or giving aid on examinations or other assigned work requiring independent effort. In submitting written material, the writer takes full responsibility for the work as a whole and implies that, except as properly noted by use of quotation marks, footnotes, etc., both the ideas and the works used are his or her own. In addition to maintaining personal academic integrity, each student is expected to contribute to the academic integrity of the School community by not facilitating inappropriate use of her/his own work by others and by reporting acts of academic dishonesty by others to an appropriate school authority. It should be clearly
understood that plagiarism, cheating, or other forms of academic dishonesty will not be tolerated and can lead to sanctions up to and including separation from the Rutgers School of Public Health.

**Students with Disabilities:** Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student must apply for Services by first completing a Registration Form with the Rutgers Office of Disability Services (ODS) at [ods.rutgers.edu](http://ods.rutgers.edu). The student will also be required to participate in an ODS intake interview and provide documentation. If reasonable accommodations are granted, ODS will provide you with a Letter of Accommodations which should be shared with your instructors as early in your courses as possible.

**Commitment to Safe Learning Environment:** The Rutgers School of Public Health is committed to helping create a safe learning environment for all students and for the School as a whole. Free expression in an academic community is essential to the mission of providing the highest caliber of education possible. The School encourages civil discourse, reasoned thought, sustained discussion, and constructive engagement. Provocative ideas respectfully presented are an expected result. An enlightened academic community, however, connects freedom with responsibility. The School encourages all students to disclose any situations where you may feel unsafe, discriminated against, or harassed. Harassment or discrimination of any kind will be not tolerated and violations may lead to disciplinary actions.

**Reporting Discrimination or Harassment:** If you experience any form of gender or sex-based discrimination or harassment, including sexual assault, sexual harassment, relationship violence, or stalking, know that help and support are available. You may report such incidents to the [RBHS Title IX Office](http://rvhs.rutgers.edu) or to the School of Public Health's [Office of Student Affairs](http://sphe.rutgers.edu). Rutgers University has staff members trained to support survivors in navigating campus life, accessing health and counseling services, providing academic and housing accommodations, and more. If you experience any other form of discrimination or harassment, including racial, ethnic, religious, political, or academic, please report any such incidents to the School's [Office of Student Affairs](http://sphe.rutgers.edu). The School strongly encourages all students to report any incidents of discrimination or harassment to the School. Please be aware that all Rutgers employees (other than those designated as confidential resources such as advocates, counselors, clergy and healthcare providers as listed in Appendix A to [Policy 10.3.12](http://sphe.rutgers.edu)) are required to report information about such discrimination and harassment to the School and potentially the University. For example, if you tell a faculty or staff member about a situation of sexual harassment or sexual violence, or other related misconduct, the faculty or staff member must share that information with the [RBHS Title IX Coordinator](http://rvhs.rutgers.edu). If you wish to speak to a confidential employee who does not have this reporting responsibility, you can find a list of resources in Appendix A to University [Policy 10.3.12](http://sphe.rutgers.edu). For more information about your options at Rutgers, please visit [Rutgers Violence Prevention and Victim Assistance](http://rvhs.rutgers.edu).

**Graduate Student Computer Policy:** Students are required to possess a personal laptop, no older than approximately two years, that must meet minimum requirements which may be found online at: [sph.rutgers.edu/student-life/computer-support.html](http://sph.rutgers.edu/student-life/computer-support.html)

**Policy Concerning Use of Recording Devices and Other Electronic Communications Systems:** When personally owned communication/recording devices are used by students to record lectures and/or classroom lessons, such use must be authorized by the faculty member or instructor who must give either oral or written permission prior to the start of the semester and identify restrictions, if any, on the use of mobile communications or recording devices.

**Policy Concerning Use of Turnitin:** Students agree that by taking this course all required papers may be subject to submission for textual similarity review to Turnitin.com (directly or via learning management system, i.e. Canvas) for the detection of plagiarism. All submitted papers will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin.com service is subject to the Usage Policy posted on the Turnitin.com site. Students who do not agree should contact the course instructor immediately.
Withdrawal/Refund Schedule: Students who stop attending their course(s) without submitting a completed Add/Drop Course form will receive a failing grade. Furthermore, students dropping to zero credits for the semester are considered withdrawn and must submit a completed Leave of Absence form from the School of Public Health’s Office of Student Affairs. The School of Public Health refunds tuition only. Administrative and technology fees are non-refundable. You may find the Withdrawal/Refund Schedule on the School of Public Health website at:
sph.rutgers.edu/academics/academic-calendar.html

Special Circumstances During COVID-19
To keep our on-campus communities safe, compliance with all current guidance and policies as set forth in the Guide to Returning to Rutgers is required at all times and without exception. Students, faculty, staff, or visitors who do not comply with these policies will not be permitted to remain on-site. The use of face-coverings indoors *IS* required in classrooms and offices as well as shared spaces (such as hallways and bathrooms). Rutgers employees and students must use the My Campus Pass symptom checker, a self-screening application, each day when traveling to campus or entering a Rutgers building. Please remember to wash your hands, wear a mask while indoors, particularly in crowded spaces and groups, and stay up-to-date on university guidance by consulting the Guide to Returning to Rutgers and the university’s COVID-19 website.

In addition, the School of Public Health recognizes that students may experience challenges or be negatively impacted due to the COVID-19 pandemic, mental and emotional health toll from systemic racism, altered personal and professional obligations, and other crises existing at the moment in our local, national, and global communities. Students are encouraged to discuss these challenges and circumstances with their instructor, if they feel they may need additional support or temporary accommodations at the beginning or during this course. The course instructor may consider making reasonable temporary adjustments depending on the student’s situation. If additional support is needed, students may reach out to the Office of Student Affairs (studentaffairs@sph.rutgers.edu) or any of the appropriate referral resources listed on the SPH Student Connect Canvas page.
