(Young Workers Health and Safety)

LOHP: This community outreach program provides health and safety information in nearly every industry, from healthcare to agriculture to construction. Publications and videos are available on such topics as construction safety, ergonomics, teens in the workplace, lead hazards, workers' compensation and workplace violence. Some items may be downloaded at no charge.

Young Workers Health and Safety: This site is a project of the California Resource Network for Young Worker Health and Safety. The goal is to help prevent California's young workers from being injured or killed on the job. There are several curricula and teachers' guides available through this site, applicable to other states. For information on your state's laws, visit the National Young Worker Safety Resource Center at <http://socrates.berkeley.edu/~safejobs/nation/index.html>

UCLA-Labor Occupational Safety and Health Program
