MASTER OF PUBLIC HEALTH IN OCCUPATIONAL SAFETY AND HEALTH (MPH)

ABOUT

The Rutgers School of Public Health's Master of Public Health (MPH) in Occupational Safety and Health degree is dedicated to training professionals in the fundamentals of safety science, preparing graduates to mitigate workplace risks. Students will be trained to identify occupational safety and health issues in the workplace with specific coursework that will educate students on how to develop testable models to validate occupational exposures and adverse health outcomes and utilize their understanding of regulatory compliance standards to devise best-in-class solutions to ensure worker safety and health protection.

In addition to degree coursework, students have the opportunity to attend summer review courses offered by the Office of Continuing Professional Education in preparation for the Registered Environmental Health Specialist (REHS); Certified Safety Professional (CSP); and Certified Industrial Hygienist (CIH) exams, which are separate from earning the graduate degree.

Graduates are eligible to sit for the Certified in Public Health Exam.

PROGRAM FORMAT

The MPH in Occupational Safety and Health degree is offered to students on a full-time or part-time basis. Students will complete a total of 45 credits, including a practicum experience and capstone research project.

If completing the program as a full-time student (nine or more credits per semester), the degree requirements may be completed in as little as two years (four to five semesters).

Part-time students taking at least six credits per semester may expect to finish within four years. Taking courses in the summer may help expedite part-time students' timing. Courses are available in-person, remote, and/or online.

FAST FACTS

Program Size: 20 Students

Total Credits: 45

Format: Full-time and part-time in-person; some online courses available

Degree Options: Dual degree and 15+ additional certificates

Certified in Public Health Exam Eligibility: Yes

Application Deadlines:

Fall Semester Start Date

January 15 (priority)
May 1 (regular)

Spring Semester Start Date

October 15 (priority)
December 1 (regular)

The Occupational Safety and Health concentration gave me the building blocks to learn and further my career as both a safety professional and public health professional. The concentration's curriculum is an excellent preparation tool for professional safety certifications.

- Alexis, MPH '20

PROGRAM FORMAT, CONT.

Students are also required to register for and complete an Interprofessional Education activity prior to graduation.

Dual-degree options are available in partnership with other Rutgers University schools. Students can earn a post-baccalaureate certificate alongside their degree with an additional 6-12 credits. Contact admissions for additional information at admissions@sph.rutgers.edu.

APPLICATION REQUIREMENTS

A complete application includes:

- Online application: visit go.rutgers.edu/sph-apply
- Official transcripts from all post-secondary institutions attended
- Statement of goals, one-to-three pages in length, which addresses:
 - Interest in the program
 - Preparedness for the program
 - Goals and aspirations
- Two letters of recommendation with at least one letter from an academic reference if you are currently enrolled in a degree program or have graduated within the last four years
- Resume or CV
- GRE General Exam (optional)
- TOEFL or IELTS score for applicants educated in a non-native English-speaking country

Applications are accepted on a rolling, space-available basis following the regular deadline.

ALUMNI SPOTLIGHT

Kefei, an international student, has always been passionate about public health. As a recent graduate, Kefei's future work will focus on promoting workers' health and protecting workers from work-related illness and injury.

"The School's courses provide a comprehensive education for students to promote better health and prevent diseases for the overall population. I like how the School is devoted to advancing wellbeing and public health, and encouraging students to engage in promoting health."

- Kefei, MPH '22

CURRICULUM

- Core Public Health Courses (18 credits)
- Practicum (3 credits)
- Concentration Courses (15 credits)
- Elective Courses (9 credits)
- Other Requirements

Total: 45 credits

CAREERS

- Industrial Hygienist
- Employee Wellness Manager
- Safety and Health Program Manager

Ranked Among the Best in the Country

The school has been ranked No. 22 among the 2023-2024 Best Graduate Schools in Public Health by U.S. News & World Report.

\$88 million

School primary faculty and students were directly awarded a historic \$88 million in federal grant/contract funding in 2023. These were prime awards made to Rutgers University.

Historic Endowment for LGBTQ+ Health

A \$3 million gift from James F. Dougherty, will fund the Perry N. Halkitis Endowed Chair in LGBTQ+ Public Health at the school.
