ENVIRONMENTAL AND OCCUPATIONAL HEALTH CERTIFICATE FOR BUSINESS MAJORS/MBA STUDENTS

Provides Specialized Training in Environmental and Occupational Health

ABOUT

The 15-Credit Environmental and Occupational Health Certificate enables business students to understand the basic principles of exposure science, toxicology, and health outcomes affected by business practices. Knowledge gained through this certificate will enhance interactions with government and regulatory agencies, advocacy groups, labor unions and affected communities, and facilitate implementation of informed, scientifically sound decisions that improve community and occupational health. The certificate will provide a competitive edge to those who want to work for environmentally conscious business sectors and/or companies.

Why should Business Leaders be interested in Environmental and Occupational Health?

As the world becomes increasingly aware of environmental and health impacts of manufacturing, transportation, and disposal of products used in daily life, there is a growing need for a new cadre business leaders, managers, developers, negotiators, and marketing experts with knowledge of environmental sustainability and health. Companies also want to use environmental consciousness and sustainability as marketing tools.

PROGRAM DESIGN

You can complete the Environmental and Occupational Health Certificate in two to three semesters, or you can plan a schedule for completing the courses over a two-year period (*maximum timeframe*). The late afternoon/evening schedule makes it convenient to continue working or gain experience while earning your Environmental and Occupational Health Certificate.

Depending on the degree program and concentration, certificate courses may also be applied toward a degree at the Rutgers School of Public Health. Certificate holders must apply and be admitted to the degree program.

CURRICULUM REQUIREMENTS (15 credits) *Courses are available in-person, remote and/or online, varying by semester and course.*

- **PHCO 0502** - Principles and Methods of Epidemiology (3 cr.)
- **PHCO 0503** - Introduction to Environmental Health (3 cr.)
- **ENOH 0594** - Environmental and Occupational Toxicology (3 cr.)
- **ENOH 0656** - Environmental Risk Assessment (3 cr.)
- **ENOH 0699** - Principles of Industrial Hygiene (3 cr.)

Graduates of CEPH-accredited schools and programs of public health may transfer up to six (6) credits towards a certificate program if earned within the past seven years with a grade of B or better and are deemed appropriate by the respective Certificate Program Coordinator.
